FUTURE WORLDS

PHASE 1 STREAMS | PRACTICUMS

M1 — DCS

Digital Channels & Storytelling

M2 — NAC

NextGen AI Cinema

M3 — XRC

Extended Reality & Games

M4 — LBE

Location-Based Infotainment

Four connected ways to create the stories, worlds and experiences of tomorrow.

NOT JUST A COURSE CERTIFICATION ...

A Master-led journey into real projects.

LEARN → EXPERIMENT → CONNECT → CREATE → PRACTICUM → PORTFOLIO

★ THE ULTIMATE PROJECT

THE GTM TRILOGY

Kumbh, Ramayana Journeys and Suriratna form the GTM Trilogy — PGCI's flagship live-project universe exploring ancient journeys, living cultures and future worlds through XR, AI and immersive performance. Founding Cohort participants contribute directly, turning research and design into scenes and prototypes bound for real-world stages.

★ HERO OPENING PROGRAM

M1 — DIGITAL CHANNELS & STORYTELLING

Featuring Master Storytelling Sessions with Global Mentors

Opening the PGCI journey with one of the world's most important skills: learning how stories move people, cultures and industries.

Featured voice subject to formal confirmation of participation and use of name/image.

THE DECISION

WHAT MAKES PGCIA DIFFERENT?

- **Learn From Masters** — meet practitioners, creators and specialists who have done the work.
- **Work Around Live Projects** — move beyond theory through real briefs and production challenges.
- **Build A Portfolio** — create work you can show, not just a certificate you can frame.
- **Enter Future Industries** — AI, immersive experiences, storytelling and live entertainment.
- **Build Your Network** — connect with mentors, collaborators and fellow future creators.
